

# The NDIS Early Childhood Approach Community Information Sessions

The NDIS early childhood approach supports families to help children under 7yrs with a disability or developmental delays to build the skills they need to take part in daily activities and achieve the best possible outcomes throughout their lives.

This support can be delivered in multiple ways depending on the needs and circumstances of each child and family and can include Early Connections, Developmental Playgroups and Workshops, Early Supports and/or assistance to access an NDIS Individually Funded Plan.

Benevolent Society is the NDIS Partner in the Community delivering the early childhood approach across Moreton Bay, Brisbane, Logan, and Redlands. We have developed an online information session for people living and working in these regions and invite you to join us as we explore:

- What is the early childhood approach?
- Who is eligible and how do families access it?
- What does the journey look like for those that do?
- How can we work together to support children with a disability and developmental delays?
